

*The 59th Annual Meeting of The International Association of Forensic Toxicologists (TIAFT) will take place between 5th and 8th September 2022 in Versailles, France. At TIAFT 2022, Shimadzu will be highlighting technologies that can change toxicology analysis with innovative solutions in sample preparation, mass spectrometry and automation. TIAFT 2022 also provides an opportunity to show our support for Young Forensics and Toxicology Scientists as part of our Lab4You program opening our groundbreaking technologies, capabilities, and resources for young scientists.*
